GOT IMCO?

Our 25 years' experience in trailer manufacturing is proof positive that with IMCO-Idaho,

"THE MORE YOU LOOK, THE BETTER WE'LL LOOK"

Built in Idaho, used Nationwide.
Don't settle for less!

We rebuild wrecked & burned trailers.

The **IMCO Self-Loading "Belt" Trailer** offers belt widths from 24" to 60". Full height or short side models with or without extensions give you the custom trailer you need. Units in stock for immediate sale

Heavy-duty steel construction makes the **IMCO Steel Refuse Trailer** stand apart from the competition. Super-duty designs also available for your toughest applications.

Payload-driven applications in the refuse industry demand a lightweight durable trailer. The **IMCO Live Floor Aluminum Refuse Trailer** meets that demand head on.

All new **IMCO Alum Smooth Wall** design yields both payload and durability for refuse applications. Our specially designed double wall construction will give you the "LOOK" you've been wanting at an unbeatable price.

IMCO Lightweight Commodity and Agricultural Live Floor Trailers can boost your payloads — and your profits.

The **IMCO Truck Mount Spreader/Unloader** offers you the versatility of hauling manure today and haylage or silage tomorrow. Our quick change attachments give you the best of both worlds.

IMCO Spreader/Forage Trailers will boost your payloads and lower your overhead costs. Fully convertible between manure and feed transporting applications.

The **IMCO Possum Belly Trailer** yields maximum payloads for transporting lightweight materials. Ask about our bottom dump "Rice Hull" design for achieving super cube capacities.

IMCO Elevator/Pilers can stack and load a variety of products up to 30 feet. Our all hydraulic design gives you the power to move as much as 200 tons per hour.

Financing Available on Approved Credit

QUALITY • SERVICE • RELIABILITY
