## Browse New / Used / All

We often have an extensive list of equipment, and you may be looking for just a New item, or maybe you only want a Used item. In the Browse pages, you can now refine your search to only new or used items.

First select a category or manufacturer of equipment. You can then further refine the category to a specific manufacturer, or a manufacturer to a specific model if you would like. Once you get the list of equipment, you can now narrow the search to just New equipment, just Used equipment, or All. The default is All. Select the radio button as shown below to narrow your search.
