Sending email to multiple people

Per customer requests, we have added the ability to Send a Quote or Send to a Friend to multiple people at once. Previously, you could send the quote or the listing information to only one person at a time. If you had several people you needed to send this to, you had to do it multiple times. We've now made that easier for you!

From your list of listings in your account, select Send a Quote.

In the form that opens, enter the email addresses of the people you want to send the quote to.
