Parts

Construction worksites are a wilderness of hazardous terrain, rough conditions and heavy hauls – the perfect setting for Dragon’s Ranco trailers. Ranco units are known for their strength and durability, so it’s only natural that they are now a part of Dragon.

Everything we make is severe-duty engineered to perform through the harshest conditions, day after day. Plus with our trailers, above-standard features come standard, such as all four wheels remaining on the ground while dumping and truss design draft arms on end dumps, larger hoppers and pin-setting equalizers on bottom dumps that increase productivity. Backed by the strength and stability of Dragon, a family-owned company that builds its products right here in the U.S. You get high integrity, high availability and high-speed delivery, so you can minimize downtime. And you get Dragon’s team of experts backing your business. Dump trailers that keep working, so you can too.

Make it happen.
