Rebuilt 14M Motor Grader C11 Engine

Caterpillar D6T LGP S/N WGB dozer
in for dismantle

Rebuilt D6R II Dozer C-9 Engine

Rebuilt 938G II Loader Transmission

We are a heavy equipment salvage yard. We dismantle heavy equipment and sell the used parts.

We also rebuild caterpillar engines transmissions, and other specialty parts. We deal in all types of makes and models of heavy equipment. We have Cat, Komatsu, John Deere, Kobelco, Hitachi, Hyundai, Linkbelt and Case. They are excavators, bulldozers, motor scrapers, loaders, and off highway dump trucks and articulating trucks.

We do not rebuild components for the public. We build them for our own stock to sell. Anything we rebuild is just Caterpillar.

But we do have good use engines transmissions, differentials, and etc. of other makes in our stock.

We also are on several dealer networks that if we do not have we can try to find.

Caterpillar 2 D300D S/N 5MG articulating dump trucks with
a 627F Scraper and 3 621B Scrapers and Volvo A25C
articulating dump truck in for Dismantle

Caterpillar 320C S/N PAB excavator
in for dismantle
